THE MARKETS.

A Big Drop in Pacific Mail on the Heels of a Dividend.

No End of Gossly About Stocks and Cerenis.

New York, April 16.—The stock market

opened dull and irregular, with room traders and specialists doing most of the trading. Some of the commission houses bought small lots of St. Paul, evidently for invest-

ment. Union Pacific was pressed for sale by the big traders. During the first hour the market seemed

to be without any active support.

At noon under some earnings by shorts the list, except the coal stocks, advanced fractionally. Lackswanns and Reading declined \$40\tilde{x}\$. The Pacific Mail directors declared 1\tilde{p}\$ per cent, quarterly dividend and presented a very favorable report for the past year, but the stock under very large offering rapidly declined from 52\tilde{1}\$ to 51\tilde{\tilde{x}}\$, and in the last hour's trading touched 50. It is the general opinion that the pool undertook to unload under cover of the dividend and the "resy" report and precipitated the decline. Western Union was quite active, some very large blocks coming out, one of 3,000 shares at 67\tilde{x}\$, a decline of \tilde{x}\$ from opening figures. Oregon Transcontinental was to be without any active support.

3,000 chares at 674, a decline of 5 from opening figures. Oregon Transcontinental was weak in the morning and fairly strong in the afternoon, gaining fractionally on the whole. The Gould stocks, the coalers, and Pacific Mail were the weak features, the Vanderbilts and E. Villard's the best sustained. Bonds dull, except West Shores, which were without material change.

The cotton market advanced in the morning on a very strong Liverpool trading and some local short coverings. The trading in May was very irregular, and the first hour showed some one trying to force this month showed some one trying to force this month up. There were large orders to sell the late months. The afternoon's market showed a decided decline under the selling for long account for realization, many bulls selling out their holdings and waiting for a reac-

tion.

The adjourned meeting of the Oregon Transcentinental stockholders will probably be held to-morrow, when plans will be submitted to benefit the financial affairs of the

yesterday to have 167 additional 3 per cent. consolidated bonds placed on the list, making the total issue listed \$6,102,000.

Advices from Chicago say the market has reached the top, and that lower prices are predicted. The weak parties have been bulling, but they have no following.

The Pacific Mail statement submitted shows the net earnings from June 1, 1883, to Feb. 29, 1883, to have been \$1,070,522. During this period they have continued payments of \$20,000 per month on account of bonds, and have paid last claim of city for personal taxes of 1881, amounting to \$111,-150,65. The outlook for the coming year gives every reason to believe the earnings will be much larger. The company has now \$1,118,000 cash on hand. The dividend of 11 per cent quarterly as appropried this morn. per cent. quarterly, as announced this morn-ing, was duly declared.

A VIGOROUS KICK.

Strong Letter From a Gentleman Who Feels That He Has Been Much Abused. The government is now engaged in ferreting out and collecting many old balances that have arisen in the accounts of officers, not a few of which balances have arisen by the arbitrary disallowance of legitimate ox penses which do not come with the cut-and-dried red-tape methods of the accounting officers. The following letter from a "victim may be regarded as a sample case where the

government exacts its pound of flesh under the arbitrary rulings of comptrollers and the stern letter of the law I have the honor to enclose a receipt from John L. Beveredge, assistant treasurer of the United State at Chicago, Ill., for \$35, the same stating on its face that it is an "offer in com-

This offer is made, not because the "offender," as the certificate states, considers that he owes the United States government that he owes the United States government that amount of money, not because he considers it a just and righteous account, but because it is expedient, and because, for the individual to enter into controversy with the "king" who "knows no law," would be apt to result in the same manner that obtained in the volunteer army—the private individual was the sufferer—whether right or wrong, and the disaster was sure to overcome him in any went.

more than the original claim, and on the advice of an honest attorney I put up the amount of money claimed as an overpay-ment and 21 cents more, in order that Uncle Sam can see there is nothing small about me. Sam can see there is nothing small about me. This overpayment, as claimed, I nover received, and while I probably signed the pay rolls exhibited—one was in blank and left in the hands of a claim agent—and two years or more after he received the money he forwarded the papers (except my commission, which I never received) constituting my claim to me, giving me the husks and taking the corn himself. the corn himself.

the corn himself.

The act of congress smending my muster to date Aug. 14, 1864, and to include Oct. 14, 1864, necessarily gave me the right to the pay included between these dates, no matter what had occurred previously. But the paymaster in making up the account neglected to pay me for the "responsibility of company," that amount almost equaling the claim; and again in paying mileage on an order issued in 1866 from headquarters military division of Mississippi, from Cairo to Little Rock, Ark., and collected in 1877. The pay was made up in an air line, while I had to pay was made up in an air line, while I had to proceed via the mouth of White river to Duvail's Bluffs, and thence to Little Rock, proceed via the mouth of white fiver to Duvall's Bluffs, and thence to Little Rock, the difference coming to me is more than the sum claimed. But, moreover, that I should be held responsible for the blunders of a paymaster who resorted to forgery to cover up his deficit, I do not believe in; that while I acted the honest and straightforward officer on duty, almost within hail of this paymaster, yet he neglected to notify me of his mistake (if he made one), falsified my pay role; and now, after the lapse of nearly a score of years, suit is entered against the volunteer soldier for the acts of an officer who was responsible on his hond for all the United States money he handled.

Is the paymaster dead, that suit is not commenced against him; or, in the lapse of time, has he become too poor to pay it; or must the private who entered the army in May, 1861, and served five years be the sufferer?

That I should have been continually on

That I should have been continually on That I should have been continually on duty as a capitain from February, 1864, to August, 1864, under orders from General Steele, commanding the department of Arkansas, without even one cent of pay, is nothing; that was my misfortune, not my fault. But it was owing to the neglect of the proper officers and somehold should be held. proper officers, and somebody should be held

proper officers, and somebody should be need responsible.

And now, with a large family to support, having dug what little I possess out of the ground, I am forced to deprive them of the absolute necessaries of life in order that I may help fill to repletion the coffers of Unele Sam's treasury, that our congress is now doing that a treasury, a counder necessaries of the property and that the property is a counder necessaries. their utmost to squander uselessly, and that the paid officials may resp a few dollars in fees from the hard struggles of the late volun-teer soldiers, who literally "saved the na-tion." But the "ingratitude of republics is

tion." But the "ingratitude of republics is proverbial."

The flimsey plea that this suit must be prosecuted to square the books is on a level with the rest of it. Were I among the dead, who have rendered up all earthly accounts, it it would then be squared without a "recourse to law;" or were I a poorer man in property, not having anything that could be collected by "due process of law," it would then be balanced, and Uncle Sam's books would be found correct.

Of all the unjust matters I know or ever

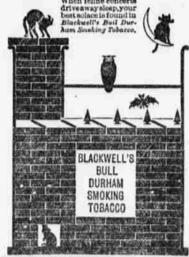

found correct.

Of all the unjust matters I know or ever heard of this surpasses them, and to crown all, even if I had received the \$34.79 in greenbacks worth less than 50 cents on the dollar, I am forced to pay back in coin worth double that amount.

Nor is this all. These persons who could and did steal thousands and hundreds of thousands of dollars from the United States revenue department can compromise the judgments obtained against them for less than the costs of prosecution. But the poor

indements obtained against them for less than the costs of prosecution. But the poor soldier must of necessity pay to the uttermost farthing a claim he never received. Therefore, if in your wisdom and the power invested in you, you see fit to acknowledge the receipt of this money in full payment of original sum claimed and "costs of suit," if any, in case 2963, northern district of Iowa, you will order it dismissed, and forward to me a receipt in full of all demands."

Analysis by Dr. A. Voelcker, F. R. S., Consulting Chemist Royal Agricultural Society, England, shows only a trace of nitrates in Blackwell's Buil Durham Tobacco. The soil of the Golden Belt of North Carolina, in which this tobacco is grown, don't supply nitratest the teat. That is the secret of its delicious mildness. Nothing so pure and luxurious for smoking. Don't forget the brand. None genuine without the trade-mark of the Buil. All dealers have it.

Swift's Specific seems so wonderful that all so af flicted should write to us.

Cancer for Fourteen Years.

SPARTANBURG, S. C., March 14, 1884.

I have for fourteen years been a sufferer from a running sere on my face that everybody called a fancer. I have need over \$500 worth of medicine and found no relief. About four a coults ago I hought one bottle of Swift specific from Dr. W. E. Heiniths, and they have crured attachment and well. Any mark and they have crured attachment and well. Any mark that free from a sore as anythody's and my heath is periodly restored. I feel like forty years had been idded off my heat. Yours, thankfully.

ELIZA TINSLEY.

Mr. B. F. Burns, Hope, Ark, says, under date of Jan. 22, 1884; "I have taken five bottles of Swift Specific for a sore on my temple—sale to be a cancer. I have been wonderfully beneated and will soon be a well man."

Mr. W. B. Hobison, Davishero, Ga., writes, under date Jan. 1, 1884; "I am getting on theely, the ulcer is granularly healing. I feel that Swift's specific will circ the horitide cancer which has been breding on his for over twenty years."

THE BEST

Hair restorative in the world is HALL's HARRENEWER. It cures all diseases of the scalp, and stimulates the hair glands to healthful action. It stops the falling of the hair; prevents its turning gray; cures baldness, and restores youthful color and freshness of appearance to heads already white with age. The following are a few illustrations of what is done by HALL'S Vegetable Sicilian

HAIR RENEWER: ET MRS. HUNSBURNT, S44 Franklin Acc., Brooklyn, N. Y., after n severe stack of Eryspelas in the head, found her bair—already gray—falling off so rapidly that she soon became quite bald. One bottle of HALL's HAIR RE. NUMER brought it back as soft, brown and thick as when she was a girl.

ET MR. KESLING, an old farmer, near Warene, Pad., had scarcely such pate left, and what little there was of it had become nearly white. One bottle of HALL's HAIR RENEWER stopped its falling out, and gave him a thick, haxutant head of hair, as brown and fresh as he ever had.

head of hair, as brown and fresh as he ever had.

23° Mas. A. T. Wall, Greenfield, Cheshire,
Eng., writes: "I have found the greatest beneffet from the use of Hall's Hain Reserven, it
having restored my hall, which was rapid salling off, and returned its original color."

23° DR. EMI, EUR, Detroit, Mich., certifies
that "Hall's Hain Rinnewen is excellent for
half growing, and gives back the natural color
to faded and gray hair."

No injurious substances enter into the
composition of Hall's Hall Runewer,
and it is not a dye. Its vegetable ingredients render it in the highest degree beneficial to the scalp as a preventive of disease. Its effects are natural and lasting,
and it does not make the hair dry and
brashy, like the so-called restoratives compounded with alcohol.

Buckingham's Dye · FOR THE WHISKERS

Is, in four respects, superior to all others.

Ist—It will produce a rich, natural color, brown or black, as desired.

2d—The color so produced is permanent, cannot be washed off, and will not soil anything with which it comes in contact.

3d—It is a single preparation, and more convenient of application than any other hair or whisker dye.

4th—It contains no deleterious ingredients, as do many preparations offered for like use.
